On the TAURUS main page, select the “Equivalencies by Course” button.

Select the University at Buffalo subject of the course you wish to view.
3. Input the University at Buffalo course number of the subject you are looking for. You may select a specific school from the drop-down menu to view just that institution. Leaving the drop-down menu at “(all)” will yield results for all institutions that have courses equivalent to the UB course you entered.

4. The transfer institution name appears in the “Source School” column, and the course equivalent to the University at Buffalo course you entered will appear under the “Course” column. Make sure to observe any notes or comments associated with the equivalency, as there may be additional requirements needed in order to receive the articulation. Please read the CAUTIONS associated with searching transfer equivalencies in TAURUS, as there are disclaimers that are important for the general public to be aware of.

If a course you are looking for does not appear in the Course Equivalency Guide, this means that it may have never been reviewed by the appropriate academic department at the University at Buffalo. In a case such as this, please go to the “Articulation Request Process” section on the TAURUS webpage and read the directions on how to submit a course articulation request.
